

COVID-19 SHOOTING PROTOCOL

Thank you for choosing Billy B Photography!

We realize the nature of this pandemic is ever-evolving. With New York City currently in Phase 2, we are able to serve clients and we are taking the following steps to ensure a safe shooting environment for everyone...

WHAT WE DO

We fully sanitize our space and equipment between every shoot.

We strive to maintain a contact-free / six-foot distance throughout the shoot.

We provide hand sanitizer throughout the shoot.

I wear a mask for the entirety of shoot.

We offer the option of full outdoor sessions to decrease indoor shooting.

We provide Photographer's COVID-19 & antibody test results upon request.

Zoom or FaceTime consultation at least two days before shoot to confirm looks to minimize what you bring to the shoot.

WHAT WE ASK OF YOU

Launder / disinfect any clothing and items you bring to the shoot.

Wash hands upon entry to the studio.

Check in via text the morning of the shoot to confirm temperature / lack of symptoms . (rescheduling fee waived if symptoms arise)

Feel free to reach out with any questions. Stay safe!

A stylized, handwritten signature of the name "Billy" in black ink. The signature is fluid and cursive, with a large, prominent "B" at the beginning. It is positioned below the text "Feel free to reach out with any questions. Stay safe!"
